## Course Selection 2020-2021

Bring this completed Course Selection Sheet for Part 2 on: \_\_\_\_\_

**Course Description:** Please review the MHHS 2020-2021 Course Catalog for course descriptions found on the Mission Hills Website under Counseling.

1. **Select Classes:** Select classes for graduation as well as A-G if planning on attending a 4 year college/university directly after graduation. Most students will select 6 classes for the upcoming school year, however, some Seniors may be eligible to take 4-5 classes.
2. **Select 3 alternates** in case the first choice is not available (e.g., the class is full, the class is no longer offered, the class does not work with the other classes selected, etc.).
3. **Reminders:**
  - **Check for prerequisites.** Prerequisites are courses a student should complete BEFORE enrolling in a course. The purpose of prerequisites is to ensure that students are academically ready to take the course of interest.
  - **Read course descriptions.** Students often sign up for courses that sound interesting to them based off of the title of the course. It is important to really understand what the class entails. While schedule changes are granted once the school year has begun, it is often much harder to make changes. It is much easier to take the time upfront and review course descriptions than to make a schedule change later.
  - **Obtain signatures.** If a course requires a signature, school counselors can NOT add a class to a student's schedule without approval.
  - **Complete relevant forms and applications.** Some courses require an application and/or form (AVID, Teacher's Aide, etc.). Without the proper documents, school counselors are unable to add these courses to a student's schedule.

I have reviewed the course selection packet, graduation requirements and Course Catalog. I approve of the course selected for the 2020-2021 school year.
